

Name:	Kaw Wei Ching
Nationality:	Malaysia
Date of Birth:	08 APR 1993
Education:	Bachelor of Science (BSc) Statistic Industry, University Tun Hussein Onn Malaysia (UTHM), 3.5 years.
Trainings and Certifications Obtained:	<ul style="list-style-type: none"> • Certification of Data Science Specialization • Exam 461: Querying Microsoft SQL Server 2012/2014 • SAS Certified Big Data Professional Using SAS 9 • Lean Six-Sigma Certification
Personal information	Email: edricconsultant@gmail.com LinkedIn: https://www.linkedin.com/in/edric-kaw/ Website: https://edric-kaw.github.io/ Contact No.: +60163074321
Years of Experience:	7 Years
Company:	SEB Life International (Jan 2023 - Current)
Details of Experience:	<p>Project: GPR, SolvencyII D1 D4, FATCA/ CRS regulatory report, Belgium/ Italy/ Spain regulatory report, Eclipse migration reports</p> <p>Experience/role: Data Engineer/ ETL Developer</p> <ul style="list-style-type: none"> • Developed complex, reusable ETL pipelines using SQL Server Integration Services (SSIS) to automate data ingestion, transformation, and loading from diverse sources. • Executed full-cycle data migration from legacy systems (Winlife, Eclipse), contributing to significant cost savings through server decommissioning. • Built scalable, event-driven cloud workflows on Google Cloud Platform (GCP) using Cloud Functions, Pub/Sub, Workflows, and BigQuery. • Automated infrastructure provisioning and CI/CD deployment on GCP using Terraform • Delivered automated Power BI dashboards to provide real-time visibility for Global Position Ranking (GPR) and operational monitoring. • Optimized relational database architecture to enhance read/write performance, scalability, and system maintainability. • Created interactive dashboards using SSRS, tableau and Power BI, enabling stakeholders to monitor operations and compliance in real time. • Conducted advanced data analysis to support regulatory reporting, business insights, and problem-solving. • Authored technical documentation covering ETL workflows, stored procedures, and architecture to support knowledge sharing and future scalability. • Led cross-functional project coordination across international teams, ensuring timely and successful project delivery under regulatory deadlines. <p>Duration of engagement: Jan 2023 – Current</p>

Company:	Abeam Consulting Sdn Bhd (Sep 2021 – Jan 2023)
Details of Experience:	<p>Project: UOB Basel IV development (Lift and Shift process) Experience/role: Senior Consultant</p> <ul style="list-style-type: none"> • Building data pipeline and ETL development for lift and shift process using informatica. • Providing Unit Testing for lift and shift process. • Debugging and development for Unix and PL/SQL for lift and shift process. • Fixing Informatica related JIRAs regarding ETL development. • Connectivity test for file transfer using IBM Sterling Direct:Connect (cdtransfer) <p>Duration of engagement: Sep 2021 – Jan 2023</p>
Company:	Concorde Technology Sdn Bhd (Apr 2017 – Sep 2021)
Details of Experience:	<p>Project: CIMB IFRS9 Simulation Server Experience/role: Consultant</p> <ul style="list-style-type: none"> • Configured group and role-based security in SAS Management Console to align with production settings. • Implemented file system access controls for domain-based folder security. • Validated datasets across text-delimited and Excel formats. • Verified access permissions in SAS EG/DI and applications (SAS RFW, MIP, BRM). • Deployed metadata objects (libraries, jobs, transforms, stored processes) and executed batch runs. <p>Duration of engagement: Feb 2021 – Sep 2021</p> <p>Project: Data Profiling & Cleansing Experience/role: ETL Developer</p> <ul style="list-style-type: none"> • Involved in profiling and cleansing rules development. • Using IBM Infosphere DataStage & QualityStage Designer <p>Duration of engagement: Dec 2020 – Feb 2021</p>

	<p>Project: Automated SOCSO Integrated System (ASSIST)</p> <p>Experience/role: Data Integration Developer</p> <ul style="list-style-type: none"> • Collaborated with business users to gather requirements and define ETL specifications. • Designed and developed source-to-target mappings for data integration and migration processes. • Executed data migration from multiple source systems into target environments using IBM DataStage. • Performed query optimization and data validation to ensure performance and data integrity. • Provided consultation on ETL best practices and BI solution design to internal teams. <p>Duration of engagement: April 2017 – Sep 2021</p> <p>Project: Change Request Development for Alliance Bank</p> <p>Experience/role: DI Developer</p> <ul style="list-style-type: none"> • Designed ETL workflows and developed source-to-target mappings for daily and monthly data loads into the AOS Warehouse. • Built ETL packages for CC Portfolio Duo Score Automation, enhancing portfolio scoring accuracy and automation. • Performed query tuning and code conversion from SAS to SQL to optimize performance. • Automated monthly reporting processes and provided ongoing support and maintenance for BI workflows. • Collaborated with internal teams and external vendors on the design, development, and testing of Business Intelligence solutions. <p>Duration of engagement: Apr 2017 – Sep 2017</p> <p>Project: Hang Lung Mall Foot Traffic Analysis</p> <p>Experience/role: Data Analysis</p> <ul style="list-style-type: none"> • Analyse the data using R-Programming. • Performing analytical study on data and make use of the findings. • Applying data visualisation of the findings to make the interpretation easy and understandable. • Interpret findings and performing forecasting/modelling to improve the revenue or profit of the respective customers. <p>Duration of engagement: Dec 2018 – Feb 2019</p>
